INTRODUCING EDUFLOW360

Education payments, orchestrated — delivered on one platform.

EduFlow360 is the orchestration approach that aligns Institutions, Parents and Students around a single financial flow. **VaultsPay** is the platform that powers it — built on two breakthroughs no other acquirer can match: a **fully-integrated POS solution** that ends reconciliation pain, and a **unique wallet proposition** that saves up to **30% on credit card transaction fees**.

30%

Reduction in credit card transaction fees — VaultsPay's "On-Us" closed-loop wallet eliminates middlemen and reclaims acquiring costs.

VAULTSPAY · ISSUER + ACQUIRER

EDUFLOW360 · THE ORCHESTRATION

1 — THE RECEIVER

Institutions

- Integrated POS · auto-posts to ERP subledgers
- Up to 30% reclaimed via "On-Us" wallet
- T+1 settlement · automated back-office
- Lifelong revenue share on alumni spend

2 — THE PAYER

Parents

- Real-time oversight via Parent Command Center
- Cloud Gateway, Onsite POS or Pay-by-Link
- Visa Installments — tuition paid monthly
- PCI-DSS L1 · 3DS 2.0 secured environment

3 — THE USER

Students

- School-branded card & wallet for life
- Zero-balance credit · no debt trap
- Careem, Talabat & campus integrations
- 8+ airport lounges & travel insurance

VAULTSPAY · THE PLATFORM · TWO BREAKTHROUGHS

PILLAR 01 · ACQUIRER SIDE

Fully Integrated POS Solution

Acquirer-native — not bolted on.

Other acquirer banks **don't integrate POS** with their core systems — POS sits in a silo, creating reconciliation gaps, manual rework and blind cash flow. VaultsPay is **both acquirer and issuer under one license**: every SoftPOS, terminal, QR and Pay-by-Link transaction auto-posts straight into the institution's ERP subledgers in real time.

100% RECONCILIATION · ZERO REWORK · LIVE DASHBOARDS

PILLAR 02 · ISSUER SIDE

Unique Wallet Proposition

Up to 30% saved on credit card transaction fees.

Parents and students hold **VaultsPay-issued, school-branded cards and wallets**. Every payment processes **"On-Us"** within the same closed-loop network — eliminating the middleman, third-party rails and hidden interchange. Schools reclaim up to **30% of usual acquiring costs**, with T+1 settlement and automated back-office.

ON-US NETWORK · 30% COST RECLAIM · T+1 SETTLE

TRADITIONAL ACQUIRER + GENERIC CARD

- ✗ POS siloed from core — manual reconciliation
- ✗ 3–5 day settlements · blind cash flow
- ✗ High card fees · multiple intermediaries
- ✗ Generic bank cards · fragmented experience

EDUFLOW360 ON THE VAULTSPAY PLATFORM

- ✓ Integrated POS · auto-routed to ERP subledgers
- ✓ T+1 settlement · automated back-office
- ✓ Up to 30% reclaimed via "On-Us" wallet
- ✓ School-branded cards · seamless omnichannel

COMPOUNDING WINS FOR EVERY STAKEHOLDER

100%
RECONCILIATION ACCURACY
Integrated POS posts every transaction directly to Tuition, Lab, Library & Cafeteria subledgers.

30%
CARD FEE REDUCTION
"On-Us" wallet network removes intermediaries — schools reclaim acquiring costs every term.

T+1
SETTLEMENT SPEED
Funds in the school account next business day · automated back-office via Dara Fintech.

Branded Card for Life

Custom school-branded cards & wallets — a lifelong identity and marketing touchpoint, issued by VaultsPay.

Parent Command Center

Real-time oversight of tuition & allowances · Cloud Gateway, Onsite POS or Pay-by-Link choice.

Lifelong Revenue Share

Earn on every alumni transaction — coffee, salaries, mortgages. A perpetual profit center.
